

Team Kiwi – Playlist Party

Startup 02 Report

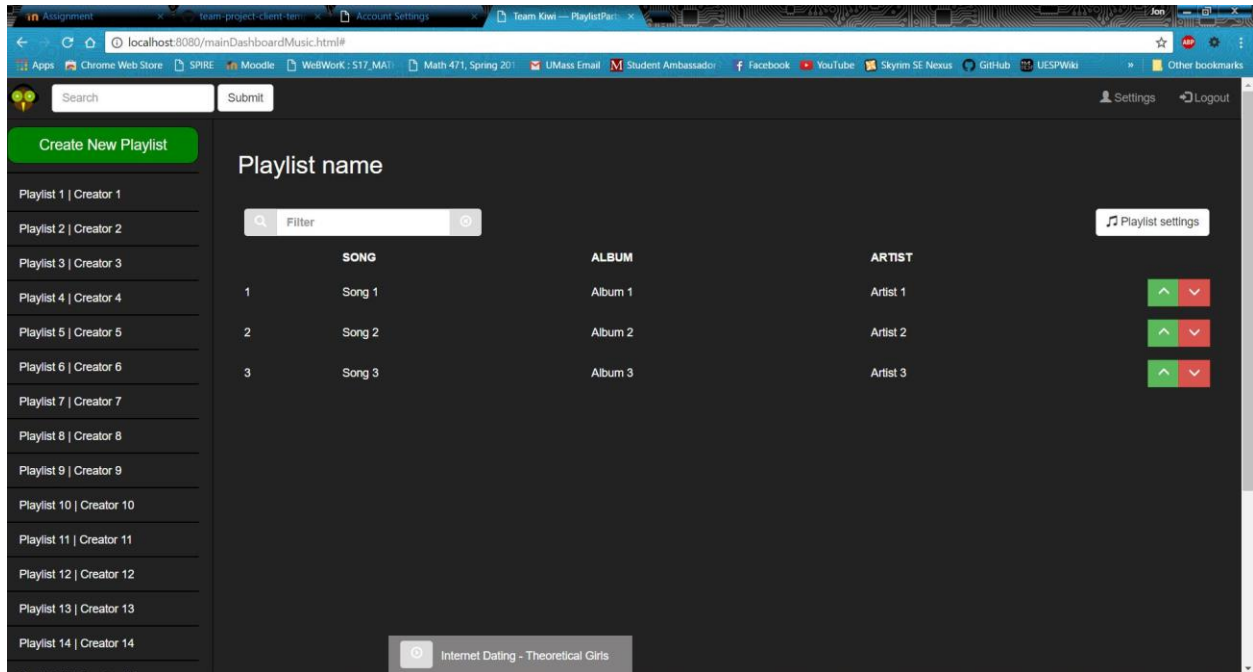

Pages/Features:

1. Main Dashboard (Jon Bailey + Sam McGuire)
 - a. Jon Bailey designed the page, coded and styled the top navbar and left sidebar, and Sam McGuire coded and styled the middle table. Features include a left sidebar with a populated list of created playlists, a button to create a new playlist (linked to *Create Playlist* page), a top navbar with a home page link (embedded in app logo), a search bar (linked to *Search Results* page), an *Account Settings* button (linked to *Account Settings* page), and a *Logout* button.

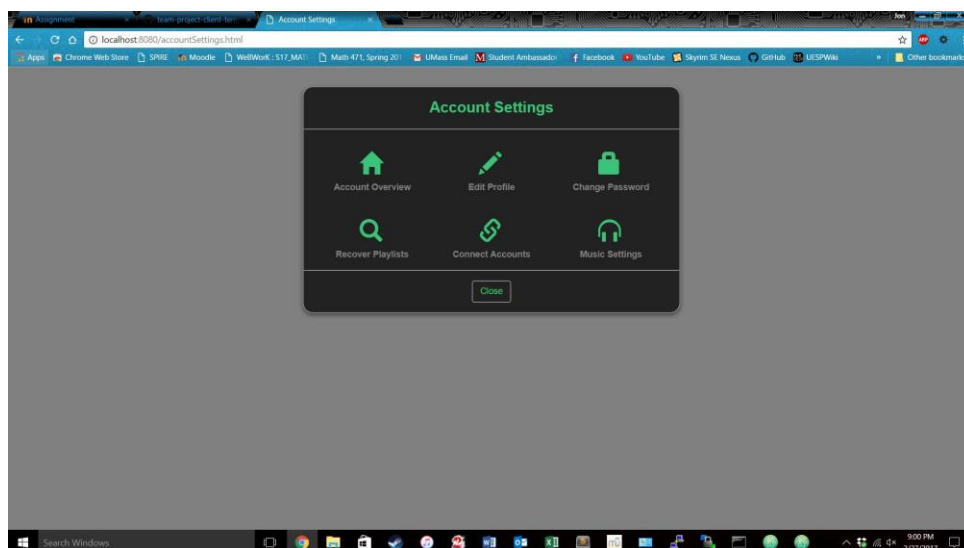

2. Main Dashboard (w/ playbar) (Jon Bailey + Sam McGuire)

- Sam McGuire coded and added the bottom playbar as an additional widget to the main dashboard page. The playbar will include a scrubber and info about the currently played song with more development.

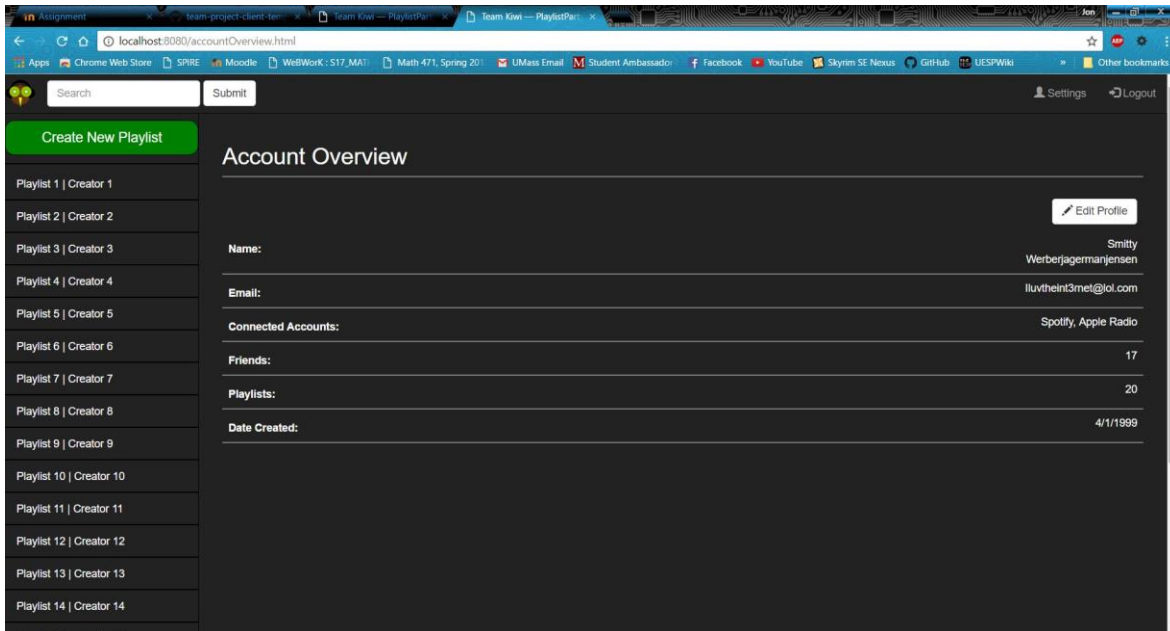

3. Account Settings (Nick Cummings)

- Nick Cummings designed, coded and styled the account settings page. Features include pop-up and close (javascript to be replaced by React later), Account Overview button, Edit Profile button, Change Password button, Recover Playlists button, Connect Accounts button, and Music Settings button.

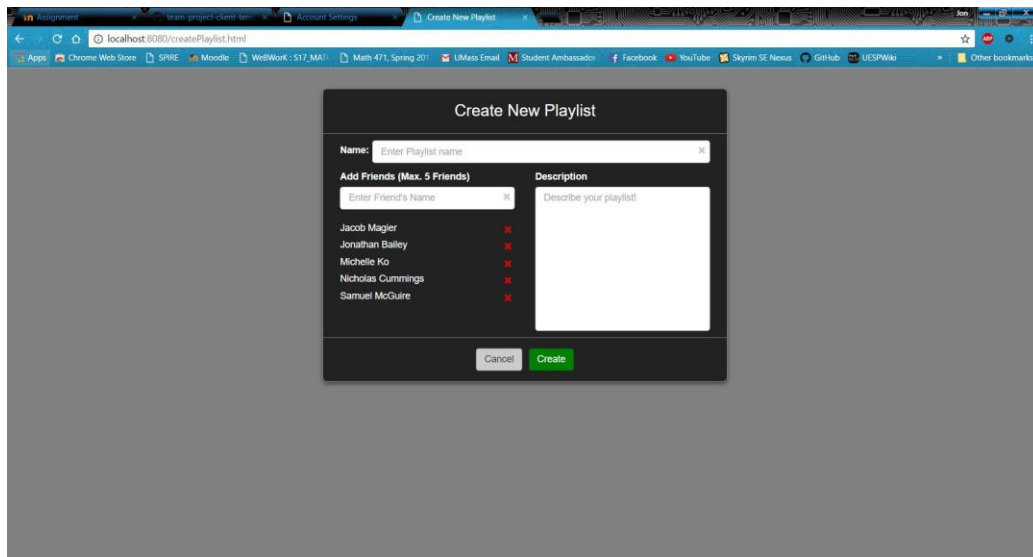

4. Account Overview (Nick Cummings)

- a. Nick Cummings designed, coded and styled the account overview page (linked to the account settings page)

5. Create Playlist (Dominick Carnevale)

- a. Dominick Carnevale designed, coded and styled the create playlist page. Features include *Name your Playlist*, *Add/Delete Friends from Collaboration*, and *Playlist Description*.

6. Search Results (Jake Magier + Michelle Ko)

- a. Jake Magier and Michelle Ko co-designed, coded and styled the search results page. Features include a search filter, play button for searched songs results, add to playlist button.
